

As per the legislation, it is necessary for members with dedicated hunter status to provide proof of hunting related activities to the association.

We urge you therefore to note all activities on this card and have it endorsed by either your branch chairman, farm owners on whose land you hunt, etc.

Activities may include for example any hunts you undertook (not only Association hunts), and Association activities such as waterholes, competitions, shoots, etc.

We would like all members to complete the following section which will assist us in recording species of animals and birds hunted in each province, in a hunting season.
